SUMMARY

Aspiring B.Tech Computer Science Engineer specializing in Machine Learning and Data Analytics. Proven ability to develop full-stack applications and design optimized relational database schemas to drive actionable business insights.

EDUCATION

2023 - Present	Btech (CS) Pranveer Singh Institute of Technology	(Percentage: 66.09)
2020 - 2021	Class 12th Dayanand Dinanath Education Center	(Percentage: 83.3)
2018 - 2019	Class 10th Dayanand Dinanath Education Center	(Percentage: 86.6)

SKILLS

Languages:	Python, C/C++, JavaScript , ANSI SQL ,HTML/CSS
Core Concepts:	Object-Oriented Programming, Data Structures & Algorithms, DBMS, OS
Technologies:	Numpy, Pandas, Scikit-learn, PyTest, Selenium, Data Analysis, Machine Learning
Developer Tools:	VS CODE, Jupyter Notebook, PyCharm, Github, MySQL Workbench, LaTeX
Soft Skills:	Problem Solving, Time Management, Communication, Leadership

PROJECTS

RoadGuard-AI

[Github Link](#)

- Automated road quality inspection by developing an AI-driven computer vision pipeline, directly addressing infrastructure challenges.
- Trained a custom YOLOv8 model to process dashcam video feeds with 90%+ accuracy, evaluating road conditions in 10-second segments to generate dynamic health scores.
- Reduced manual inspection time by 75% by building an automated logging system using SQLite and Folium GIS.

Expense Tracker

[Github Link](#)

- Enabled users to efficiently log, manage, and monitor daily financial transactions by building an intuitive desktop application using Python and Tkinter.
- Secured data persistence and facilitated dynamic monthly table creation through the integration of an embedded SQLite3 database handling complete CRUD operations.
- Streamlined end-user installation with zero dependencies by packaging the software into a standalone Windows executable using PyInstaller. %.

CERTIFICATES

- | | |
|--|----------|
| • Mastering Data Structure & Algorithms with C & C++ Udemy | 400 days |
| • Python for Data Science & ML Udemy | 120 days |
| • Machine Learning Specialization by AI visionary Andrew Ng Coursera | Present |
